

Isabelle Lagroye, PharmD and PhD in Life Sciences, graduated from the Bordeaux II University, France, in 1997. After a post-doctoral position at the Radiation Oncology Center in Dr Roti-Roti's laboratory (Saint-Louis, MO, USA), she has carried out research work at the Bioelectromagnetics group of the IMS laboratory, University of Bordeaux I since 1999. She is also a Director of studies at the Ecole Pratique des Hautes Etudes (EPHE), France. Her research deals mainly with the toxicological effects of non-invasive electromagnetic fields, investigating genotoxicity, apoptosis, and protein expression in rat brain and cell cultures exposed to mobile telephone signals. She was a member of the ICNIRP Standing Committee on Biology from 2009 until 2012 and was appointed a Member of the ICNIRP Scientific Expert Group (SEG) in March 2013.
